

## ● Form for exchange under guarantee

Before requesting an exchange under guarantee, please check the 4 points below:

- 1 • You purchased your remote control less than one year ago for a gate remote control or less than 3 months ago for a TV/Hi-Fi/Video remote control.
- 2 • The problem is not due to the battery. Even if the diode lights up, try changing the battery, because it may not have sufficient power to operate your equipment remotely.
- 3 • Your remote control has worked in the past. If it has not, you may have ordered the wrong reference number.
- 4 • If all remote controls have ceased to function, check that the problem does not come from the receiving equipment.

Please find below the procedure to follow should you wish to return one or more items:

- 1 • Return authorisation number:
